

Need help with pre-planning for grant funded projects?

There are numerous State and Federal grants available to Queensland councils for projects supporting local communities and infrastructure. By having a project supported with robust business cases, project plans, and demonstrated community consultation, your submission is stronger as it showcases its viability.

Therefore, the pre-planning stage of your project before a grant application is key in determining if the project is grant ready and is an important contributing factor to being successful in obtaining funding.

Our range of pre-qualified suppliers are ready to assist you in preparing your projects, business cases, and viable project plans under the Planning, Surveying, Design & Architectural Services (BUS265) Arrangement.

Services available:

- Preparation and review of infrastructure plans
- Cultural, heritage & development applications & assessment
- Preparation of natural hazard plans
- Social impact assessments
- Aged care development
- Tourism development
- Lifestyle facilities planning
- Master and structure planning
- Due diligence assessment and development feasibility
- Site inspections and reviews
- Consultation
- Brief preparation
- Document review and analysis
- Planning and estimation of costs and budget

Why Local Buy LGA Arrangements?

Local Buy helps alleviate the need for open market tenders by managing the procurement compliance burden on behalf of all Queensland Local Governments.

All Local Buy LGA Arrangements are compliant with the Local Government Regulation 2012 and Local Government Act 2009 and provide Local Government entities with the assurance that all suppliers are vetted and compliant based on a comprehensive tender, evaluation and approval process.
