

Winter is coming.

Are you ready for increased tourism opportunities?

Upgrade your facilities and create more opportunities in regional tourism.

Unable to travel overseas, Australians are increasingly looking for self-drive holiday opportunities, and Queensland is the most popular destination for interstate travellers. Winter is the time when grey nomads and families from the southern states come north. This has a positive affect on the local economy as travellers spend money at shops, cafes, restaurants, tourist attractions, hotels, motels and petrol stations.

Raising the profile and attractiveness of your region as a destination for travellers will assist your communities to remain viable. Traveller decisions to stay or go will likely be driven by comfort factors, such as the availability of suitable infrastructure and facilities in towns and at stopovers.

Local Buy's Open Spaces, Parks, Play, Sport and Recreation LGA Arrangement (**BUS267**) provides Queensland councils with access to suppliers that can deliver the conveniences to tempt tourists to linger a little longer in their region.

Here are some examples for use of the BUS267 LGA Arrangement:

> **Street & Park Furniture**
Bike racks, bins, seating & tables

> **Shade sails and gazebos**

> **BBQ's and modular restrooms**

> **Signage**
Decorative, specialised and LED

> **Handrails, decking, boardwalks and pedestrian bridges**

> **Outdoor Lighting**
For pathways and sports fields, including LED options, mains and solar powered.
